#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Regarding claims 18, 29, 54, and 66 which was rejected previously under 35 USC 112, first paragraph, examiner accepts applicant's explanation that those claims reads on the embodiment of figure 11 and withdraws the 35 U.S.C. 112 , first paragraph rejection. However, since they do not read on the elected specie of figures 1-7, it is consequently withdrawn from consideration as well.

In summary, claims 12, 13, 18, 21, 29, 40, 44, 54, and 66 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 9/24/2004

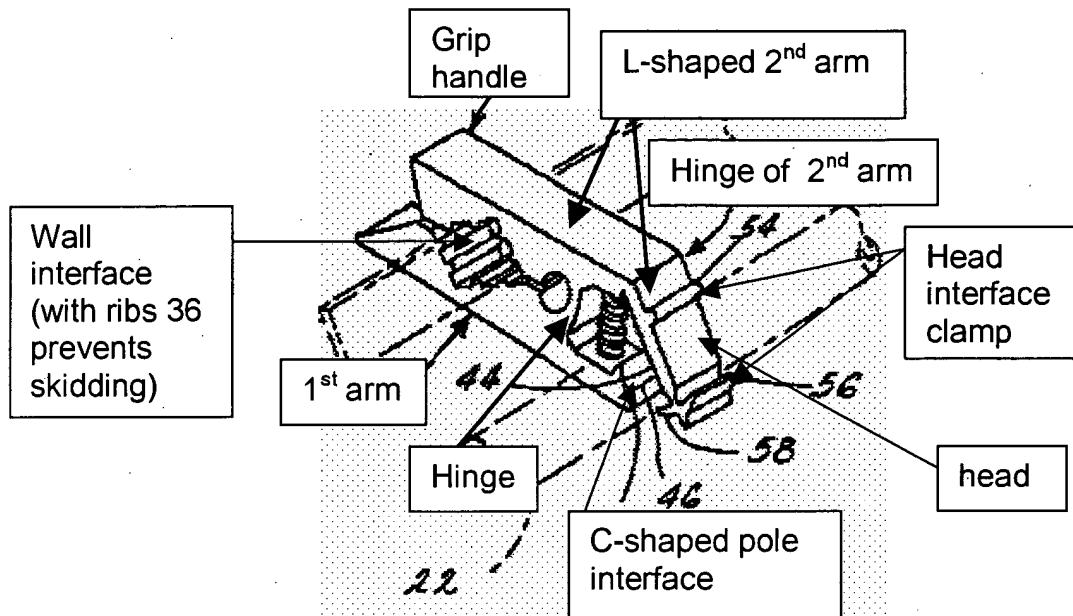

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 112***

Claim 43 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 43 depends from cancelled claim 42.

#### ***Claim Rejections - 35 USC § 102***

Claims 1-3, 5, 11, 14, 17, 19, 20, 22-25, 28, 30, 31, 33, 39, 43, 45, 46, 53, 55-57, and 62-64 stand rejected under 35 U.S.C. 102(b) as being anticipated by Walker (US patent no. 5,715,620) as illustrated in the previous Office Action.

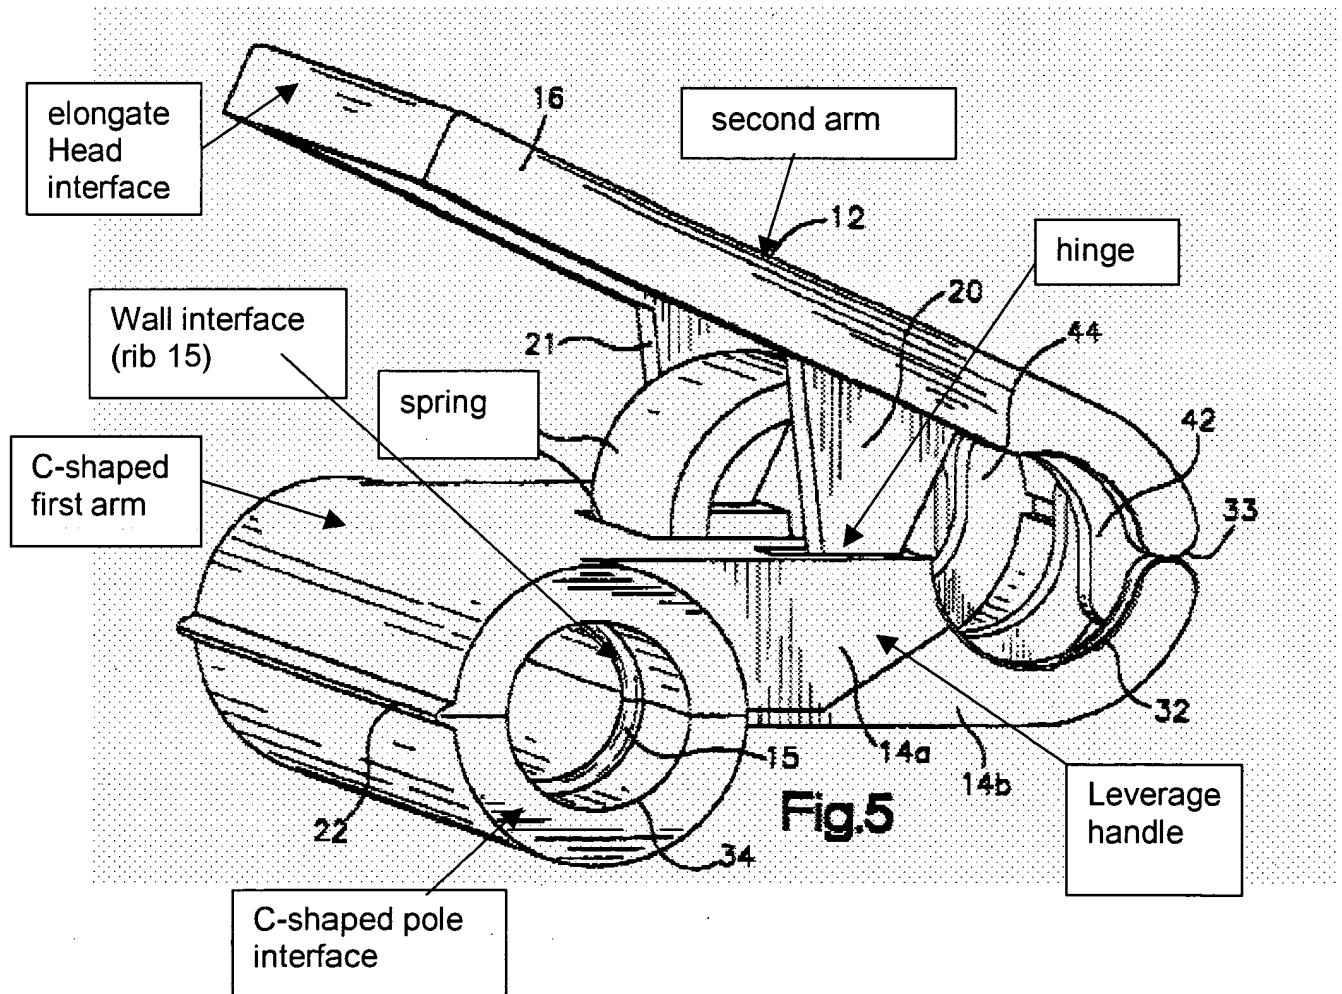

Regarding Walker, applicant's argument filed 4/18/2005 is not persuasive. It appears applicant misread the rejection. Applicant has misunderstood the previous Office rejection by stating that examiner's the pole interface was arm 44 which is inserted into the pole. However, examiner clearly illustrated by C-shaped pole interface as element 46, figure 3 which removably abuts the pole (22) wherein the biasing unit is capable of operation through the pole interface and head interface (34, figure 2) to suspend a partition mount position between the pole (22, figure 2) and the abutting surface (any adjacent surfaces of the car). Walker also shows the elongated head (44,

figure 3) extending transverse to the body (extending from 18b, figure 2 over the spring 40, figure 2).

Claims 1-4, 14-16, 19, 20, 22, 24-27, 30-32, 43, 45, 51, 52, 55, 63, 64 stand rejected under 35 U.S.C. 102(e) as being anticipated by Lassiter (US patent no. 6,523,231) as illustrated in the previous Office Action.

Regarding Lassiter, applicant's argument filed 4/18/2005 is not persuasive. Applicant's argument that Lassiter fail to teach the pole interface arranged to removably abut a side portion of the pole less than the entire perimeter of such side portion is not persuasive. Examiner equates a C-shaped portion of 34 as the pole interface which means that such pole interface only engages a C-shaped portion of the wire or pole and not the entire perimeter. Applicant's argument that when clamped, the Lassiter sleeve 34, 22, 14a is fixedly secured to the electric cord and is therefore no removably secured. Examiner respectfully disagrees. The cord can be unclamped from the sleeve and consequently constitutes removable abutment as claimed. Applicant's intended usage of suspending a partition mount is not accorded with patentable weight. Lassiter's device is capable of suspending a partition mount.

***Allowable Subject Matter***

Claims 6-10, 34-38, 41, 47-50, 58-61 are objected to as dependent from a rejected base claim.

Claim 65 is allowed.

***Response to Arguments***

Applicant's arguments filed 4/18/2005 have been fully considered but they are not persuasive as discussed above.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3632

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
